**Nursery School
in Alberone**
Via G. Pascoli, Alberone

WHAT YES WHAT NO

WHAT Yes

- Respect entry and exit times
- Take care of the environments
- Participate in the meetings offered at the nursery
- Engage in the activities of the Committee
- Being able to authorize adults to collect their child by completing the delegation form at the beginning of the year

THING NOT

- Use your cell phone inside the nursery
- Do not bring food of any kind from home
- Do not let children wear earrings and bracelets

MEALS AND PERSONALIZED DIETS

In every nursery there is an internal kitchen.

Meals are administered on the basis of a menu approved by the Local Health Authority, which is divided into 5 weeks in compliance with regional law n.29 of 2002

Children under one year old have a personalized meal, which takes into account the weaning process and the indications of the family pediatrician.

It is possible to administer expressed breast milk according to the methods indicated by the USL company.

Children with allergies and intolerances, certified by a medical certificate, are entitled to personalized diets.

Even for religious or ideological reasons it is possible to request personalized diets according to the availability of the menu by completing the self-declaration form available at the Nursery Office.

FACILITIES

The fee can be calculated based on the ISEE, and must always be paid even in the event of the child's absence.

The ISEE is valid until 31.12.2025, and to guarantee the continuity of the preferential rate starting from January 2025 it is necessary to present the new ISEE by 31.01.2026.

In addition to the tariff concession, contributions to families are provided by INPS (Nursery Bonus).
